

RL50210 TA

1,000lb-2,500lb Capacity Mini Tank Weighing Module

Available in configurations with three or four mounting assemblies.

Picture is a representation of actual product

The RL50210 TA weigh module kit provides a cost-effective alternative for your customers' medium-range weighing needs. A variety of features makes this kit easy to install and an exceptional choice for various indoor weighing applications where checking requirements are low. Environmentally protected load cells, neoprene isolation/compression mounts and other Rice Lake Weighing Systems components are the keys to this module's performance.

Module with RL35023 single-ended shear beam load cell; capacities (per module): NTEP Certified 1,000 lb (453.6 kg) load cell shown.

Standard Features

- NTEP Certified load cells (alloy steel only), 1:5,000 d, Class III multiple cell
- Zinc plated, mild steel assemblies
- Medium weighing ranges from 1,000 lb-2,500 lb (453.6 kg-1,134.0 kg) per module
- Environmentally protected load cells
- Neoprene isolation/compression mounts allow for minor misalignment, thermal expansion and shock absorption
- Overload stop provides durability
- RL50210 stainless steel mounts use RL35023S stainless steel load cells, capacities: 1,000 lb-2,500 lb (453.6 kg-1,134.0 kg) NTEP Certified cells
- 65059 stainless steel mounts use VPG Sensortronics 65023S NTEP Certified stainless steel load cells

Applications

- Small tanks and hoppers
- Conveyor/In-motion weighing
- Small platform scales where minor shock loading may be a problem

Complete Kit Includes

- 1 JB4SS NEMA Type 4X stainless steel signal trim junction box
- 3 or 4 RL35023 shear beam load cells
- 3 or 4 neoprene isolation/compression mounts
- 25 ft of our hostile environment EL147HE SURVIVOR® load cell cable

Optional Features

- Welded stainless steel cells available in stainless steel mounts
